

*September 5, 2023*

*Please see the information below in regards to the Fire Hydrants within the Town of South Congaree.*

*Joint Municipal Water & Sewer Commission currently has three blow offs running in the South Congaree area for water quality purposes. The first one is located at Princeton Rd and SC-302. This operational strategy is not uncommon for this time of year in South Congaree and other areas of our system to ensure proper chlorine residual levels and overall water quality.*

*The two other blow offs in that general area are running on dead-end sections at:  
Isom lane (fire hose in storm drain)  
Congaree Ridge court, Indian river (fire hose in storm drain)*

*We are monitoring these closely.*

*Thank you.*

Jay Nicholson
